About the Company

Motion Bags & Cases is a Johannesburg manufacturer of flight cases, padded speaker bags and custom protective covers. We build to order, by hand, around the exact equipment our clients need protected.

Equipment rarely breaks during the job. It breaks on the way there — in the bakkie, on the tail-lift, in the twenty seconds it is handled by someone who did not pay for it. That is the problem we exist to solve, and it is why every case and bag we make is measured to the millimetre rather than selected from a size chart.

Over 15 years we have built more than 500 cases and bags for touring and rental companies, churches, mobile DJs, broadcast and film crews, corporate AV teams, and industrial and laboratory clients across South Africa.

We bag and case anything. If it has dimensions, we can protect it.

— The Motion Bags & Cases promise

Company Details

Registered Name	Motion Bags & Cases (Pty) Ltd
Registration number	2010/139656/23
B-BBEE status	Level 1
Established	2005
Business type	Manufacturer — custom protective cases, bags and covers

Products & Services

Everything we make is built to order. The list below is a starting point, not a limit.

- Flight cases and road cases — rack cases, mixer cases, amplifier racks, speaker and lighting cases
- Padded speaker bags and covers — tops, subwoofers, wedges, column arrays and line-array boxes
- Amplifier, mixer and controller covers, and dust covers for installed equipment
- DJ cases — controller cases, coffin cases, laptop shelves, booths and facades
- Utility trunks, workboxes, cable trunks and accessory bags
- Trade show, exhibition and display cases with divider systems
- Custom builds — drones, cameras, medical and laboratory instruments, machinery samples, prototypes and specialist equipment
- Repairs and refurbishment — any brand, including re-foaming to fit new equipment
- Production runs and fleet orders at volume pricing, to a consistent specification
- Branding, colour matching and fleet colour-coding

Capability & Construction

Case panels	Phenolic-faced hexaboard / birch ply — thicknesses stocked
Edging & corners	Aluminium extrusion with riveted steel ball corners
Hardware	Recessed butterfly latches and spring handles
Case interiors	Foam, cut to your equipment
Bag fabric	600D nylon / 1000D cordura, water-resistant
Bag padding	10mm / 20mm closed-cell foam
Finishing	Double-stitched and bar-tacked; heavy-duty zips
Options	Castors, stacking dishes, dividers, cable wells, removable lids, branding
Turnaround	Most builds leave the workshop within 7 working days
Warranty	6months on workmanship
